

# ADA SIGNAGE

## Benefits:

- Full Compliance with the Americans with Disabilities Act
- Customer goodwill

## Description:

The Americans with Disabilities Act of 1991 mandates public accommodation for disabled persons. Most businesses are required to accommodate the sight impaired with specialized signage for suite numbers, directional and restroom signs, for example. We can provide raised text and graphics and Braille signage as well as specific guidelines regarding the placement of regulated signage to help keep your business in compliance.
